

How to Add Your 3D Walking Tours to Apartments.com

You probably know how to [display your 3D Walking Tours](#) on your website, but you may be wondering: How do I add them to my Apartments.com listing?

Since 3DPlans.com is an approved Apartments.com vendor, adding your 3D Walking Tours to your listing is easy using the steps explained below:

1. Gather the required information
2. Copy/paste the email template and edit it
3. Send the email to support@apartments.com

 3D Walking Tour links from 3DPlans.com typically look like this:

<https://3dplans.com/apps/hosting/24461>

or

https://3dplans.com/apps/hosting/greystar/elan_research_park/

However, Apartments.com requires different unique links for each floor plan, which appear like this:

<https://3dplans.com/apps/hosting/24461p1>

<https://3dplans.com/apps/hosting/24461p2>

<https://3dplans.com/apps/hosting/24461p3>

If you didn't receive those unique links via email when you approved your 3D Walking Tours, request them from your 3DPlans.com Project Manager or support@3dplans.com.

Steps

1. Gather the required information

- Management company name
- Property name
- Property address
- Tour type: Amenity, specific model, or specific unit.
 - Almost always, 3DPlans.com tours fall under "specific model"
- Floor plan names and Tour links for each individual floor plan
- Caption: Floor plan name or a description, such as:
 - *2BD, 1BA - 620SF*
 - *2 Bedroom*
 - *The Blue Beech*

For the Caption, use the same floor plan names/description as shown on your Apartments.com listing, so prospective renters aren't confused.

2. Copy/paste the email template and edit it
